PerkinElmer India team
wishes you
a very happy and fresh new year.

HUMAN HEALTH | ENVIRONMENTAL HEALTH

Dear Customers,

It gives us immense pleasure to get in touch with you and share the knowledge that we gathered working closely with wide spectrum of industries and applications. We are glad to announce the release of our in-house news update FRESH as an opportunity to say hello to you. It will be our endeavor to bring the relevant FRESH knowledge and FRESH news to keep you update through FRESH.

Many of you have been using the various analytical systems. With the New Year beginning we shall be mailing the periodicals to keep you updated about our efforts to provide world class instrumentation and value added services.

PerkinElmer has strengthened the customer support activities by providing world class services through the qualified and experienced service team. Our services are also recognized by overseas customers for the efficient and quality after sales support in the subcontinent.

We also would like to inform you that our recently inaugurated Technology Innovation Centre located at Mumbai is the state of the art station; equipped with various analytical instruments and systems comprising of Atomic Spectroscopy, Chromatography and material characterizations. In addition to laboratory facilities the center is equipped with Dr. C.V. Raman training centre for facilitating customer training programs.

The Tech centre is managed by the qualified professionals with domain and application experience from renowned industries and premier research institutions.

PerkinElmer continues to focus on providing solutions to analytical problems through innovative technologies. This has led to commence the world class Ecoanalytix Global Applications centre in India. The only other countries are USA (Shelton), UK (Seer Green) and China (Shanghai) to have the EcoAnalytix centre. The Ecoanalytix team will provide complete solution to the market driven issues pertaining to Pharmaceutical, environmental and food regulations.

As a matter of fact the requirement and supply of fossil fuels are burning issues and will need attention to provide sustainable or renewable energy sources as an alternate. Eco analytix provide complete testing protocols and SOPs as per the ASTM and EN methods for the analysis of bio-diesels and bio fuels.

Likewise there are many new interesting proposals available from PerkinElmer for the better life of mankind and environment.

Your suggestions and comment are most welcome, kindly visit us on our website www.perkinelmer.in

PerkinElmer Analytical Sciences Product Overview

Atomic Spectroscopy

- Atomic Absorption
- ICP Optical Emission
- ICP Mass Spectrometry
- Sample Digestion

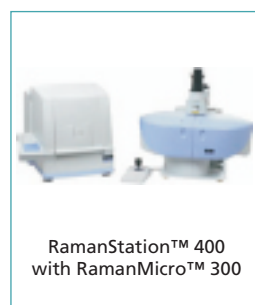

Chromatography

- Gas Chromatography
- GC Mass Spectrometry
- Liquid Chromatography
- Headspace and Thermal Desorption

Molecular Spectroscopy

- High-speed FT-IR Imaging
- FT-IR, FT-NIR and FT-FIR Spectroscopy
- Raman Spectroscopy
- UV/Vis and UV/Vis/NIR Spectrophotometers
- Fluorescence Spectroscopy

Thermal and Elemental Analysis

- DSC
- TGA
- DMA/TMA
- Simultaneous TGA/DTA
- CHNS/O and N₂ Analyzers
